Dear Cdr. Mathews,

The Mission has not received any such flowers or other other forms of expression of solidarity with farmers protest.

It may also be noted that there is no such solidarity among the diaspora community for the protests. The mission has engaged the community via social media and they are sympathetic to Gol's position on the issue. The mission does not foresee any such display of solidarity for the protests in Seychelles.

In case the mission receives any such flowers, the mission plans to engage personally with such diaspora member once again to appraise them on the three farm laws and its benefits as shared by the ministry from time to time.

This issues with approval of High Commissioner.
